 - Visual Studio
 - HTML5
 - Git / GitHub
 - Object-Oriented Concepts
 - CSS3
 - Bootstrap
-

Programming Experience

Prosper IT Consulting, Software Developer
Portland, OR

11/20 – 11/20

I interned for two-weeks at Prosper IT Consulting which used Agile/Scrum methodology. The project itself was a Theatre site that had already been scaffolded with the MVC Framework, and my team was concentrating on the UX component. I completed multiple tasks during my internship and learn which areas I need to work on.

EDUCATION

Software Development

The Tech Academy, Portland, Oregon

A forty hour a week boot camp that lasts four and a half months. It had multiple courses focusing on:

- Version Control, Git and GitHub
- HTML5 and CSS3
- JavaScript
- Database & SQL
- Visual Studio
- C# & .NET Framework

There were many challenges, assignments a couple project in each course. After I completed those courses, they had Intern at Prosper IT Consulting where I gained, on the job programming experience.
