SUMMARY

Ready to learn new code, meet new people, and see things from a different point of view. Dedicated problem solver with experience working with a team of programmers. Driven software developer ready to meet you and be part of your team.

TECHNICAL HIGHLIGHTS

Programming/Development: HTML, CSS, JavaScript/jQuery, SQL, C#

Frameworks/Libraries: .NET, ASP.NET, MVC, BootStrap

IDE: Visual Studio 2019

Databases: MS SQL Server

Version Control: Git, GitHub

Methodologies/SaaS: Agile/Scrum, Azure DevOps

PROGRAMMING EXPERIENCE

Care Insurance

An MVC web application that acts as an insurance website. It takes the user's information and calculate a quote based on business logic.

21 Game

This was a console application of the card game 21. Coded a class library that could be referenced in multiple casino games, as well as 21 which was coded entirely in C#.

Portfolio

My own portfolio, which is linked above was built using HTML5, CSS3 and JavaScript. It has many features including a contact form, which will send me an email if you submit the form.

Cinemas site

A movie theatre website constructed with HTML5, a very small amount of CSS3 and bootstrap.

TECHNICAL WORK EXPERIENCE

Prosper IT Consulting, *Software Developer*   *11/20 – 11/20*
Portland, OR

Two-week sprint at Prosper IT Consulting which used Agile/Scrum methodology. The project itself was a Theatre site that had already been scaffolded with the MVC Framework, and my team was concentrating on the UX component. Completed tasks include fixing a header problem were the header would appear even if it had no value, restricting the amount of words shown in bios before adding ellipsis.

OTHER WORK EXPERIENCE
